A.O.S.E. and A.S.M.A. hold convention and exhibit 1008
Academy of Political Science—Public control of power debated 642

ACCIDENTS AND ACCIDENT PREVENTION

—Accident to turbine blower through reversal of rotation. A. G. Siefker.. 996
—Boiler operation is becoming safer (Ed.) 856
—Causes of wrecked machinery. Wm. H. Boehm 720
—Control for fire pumps to meet insurance requirements. H. L. Smith *597
—Deepwater station accident 650
—Emergency decisions (Ed.) 124
—Make portable lamps safe for workman. Robert Ball 473
—Plant engineer's suggestions for safe operation 752
—Prepare for the emergency before it happens (Ed.) 971
—Preventing accidents in hydro plants... 440
—Report on tank explosion in Washington, D. C. 569
—Safeguarding building services (Ed.).... 86
—Safety as an investment in power production. L. Hansen 603
—Safety work must be continuous. Marin Phillips 639
—Serious air-receiver explosion. Frank L. Gilmor 65
—Turbine blower accident. H. Maplethrope 600
—Turbine blower accident through reversal of rotation. B. F. Powell..... 713

AIR COMPRESSOR

—Air chart simplifies compression calculations. T. M. Gunn *779
—Air cylinder lubrication 141
—Cause of wear. W. E. Warner..... 106
—How an old foundation was enlarged. M. C. Cockshott *442
—Old engines and generators rebuilt for compressors. F. E. Estling *169
—Explosion, cause of. Frank L. Gilmor.. 65
Altitude—Effect on power equipment. F. H. Dutcher 949
American Boiler Mfgrs. Assn.—Meeting.. 887
American Engineering Council — Annual meeting (n) 117
American Institute of Electrical Engineers—Power system operation discussed..... 188

AMERICAN SOCIETY OF HEATING AND VENTILATING ENGINEERS

—Proposed revision to boiler rating code (Ed.) 238
—Record meeting at Philadelphia..... 190

AMERICAN SOCIETY OF MECHANICAL ENGINEERS

—Congratulations (Ed.) 616
—Fiftieth Birthday (Ed.) 576
—Golden anniversary ceremonies described. *578
—High pressure progress discussed at meeting 526
—Oil and Gas Power Division meeting...1002
—Oil and gas power meeting 688
—Presidents *584
—Program to review progress of 50 years 374
—Semi-annual meeting 955
American Society of Refrigerating Engineers—Trends in refrigerating industry discussed 793
American Welding Society—Boiler drum fusion welding 689
Associations and societies—Society activities, research and standardization 33
Association of Iron and Steel Electrical Engineers—Annual meeting and exhibit.1007

B

BEARINGS

—Ring-oiled split-sleeve bearings made leakproof. J. L. Brown..... *746
—Spherical thrust bearings take vertical and horizontal loads *944

BELTS

—Double belt drive from one pulley. H. Moore 847
—Selecting belt drives for profitable production. Joseph Rhoads 547
Bids on machinery 721

BOILERS

—Architects and boiler plants (Ed.)..... 657
—Benson boiler tested at Charlottenburg.. 796
—Benson & Loeffler. Wilhelm Firing.... 587
—Blowing down boilers under load. C. H. Willey 915
—Boiler drum diameters with high pressure (Ed.) 734
—Boiler, economizer and air heater surfaces (Ed.) 458
—Boiler equipment for Fremont, Neb., municipal light plant 391
—Boiler room bonus. P. R. Wilson..... 519
—Boiler room equipment reveals steady progress *11
—Can CO_2 record indicate a cracked baffle? W. T. Ritter 637
—Can a CO_2 record indicate a cracked baffle? W. F. Schaphorst 405
—Care and maintenance of automatic controls on heating boilers. A. J. Loppin 35
—Chart for feed heating. C. A. Griffiths. *212
—Code for welded boilers (Ed.) 459
—Cold water test on boilers (Ed.)..... 933
—Continuous boiler blowdown. H. K. Blanning *95
—Delray boilers depart from previous practice. C. S. Turner *500
—Dividing heating surface among boiler, economizer and air heater. Linn Helander (Ch) 358
—Draft losses through boilers (Ed.)..... 459
—Drums crack from mechanical causes. J. C. McCabe 363
—Dual firing. R. K. Long 106
—Economy and flexibility result from plant alterations. P. Dias *786
—Experiences with boilers in Holland over a six-year period. H. W. Los..... 878
—Effect of furnace volume on boiler efficiency. R. C. Brierly..... 252
—Electric boilers (Ed.) 576
—Failure on cast iron boiler feed line. C. E. Curtis *952
—Fatigue cracks and boiler plate. Capt. C. H. Dinger *872
—Fatigue tests of boiler shells 955
—Formula for computing loss due to combustible in furnace refuse. Raymond F. Forbes 100
—How the operation of a balanced-draft control was materially improved. John C. Casler *404
—If Orsat checks normal but electric CO_2 meter seems erratic look for waste.. 588
—Improved boiler practice cuts fuel costs. R. June *178
—Improved operation obtained through use of home-made draft gage. Jos. O'Brien 222
—Inspection of used boilers urged in N. Y. bill 532
—Is the fusible plug worthwhile? (Ed.) 616
—Loeffler vs. Schmidt-Hartmann. K. Rochel *718
—Main function of water walls (Ed.)... 498
—More on Benson and Loeffler. N. Artsay 714
—New Anheuser-Busch plant. V. Lipton. *934
—Notes on air-cooled boiler refractories. Edwin Smiley 518
—Old and new steam units *609
—Operating the boiler room on a time table. Lee G. Bird 428
—Operating soot blowers with high-pressure steam. Donald McWethy 106
—Place of colloids in boiler water conditioning. George C. C. Reinhard 73
—Price of poor boiler plate (Ed.) 539
—Prophecy fulfilled—water-cooled furnaces. John Lawrence *710
—Protecting boilers from embrittlement. J. J. Brennan *908
—Putting a boiler room bonus to work. K. Rankin 479
—Rating codes (Ed.) 577
—Simple method of cooling bent-tube boilers equipped with induced-draft fans. E. H. Kirchner 144
—Stokers for large capacities (Ed.) 656
—Tracing the ancestry of boiler safety devices. M. P. Jared *623
—Wall that pays no dividend (Ed.) 735

BOILERS (Continued)

—Water capacity of boilers. F. W. Dean.. 182
—Water capacity of return-tubular and water-tube boilers. W. W. Boyd 441
—Water tube boilers show largest gain in 1929 156
—Welding specifications for power boilers. *484
—What has happened to that boiler room bonus? R. K. Long 130
—What has happened to that boiler room bonus. Henry Stuart 405

BOOK REVIEWS

—Annual report of the Smithsonian Institution 186
—Arithmetic of electricity. T. O'Connor Sloane 723
—Changing character and extent of municipal ownership in the electric light and power industry. Herbert P. Doran .. 370
—Electric system handbook. C. H. Sanderson & others 524
—Electric wiring. Albert A. Schuler.... 524
—Elements of engineering thermodynamics. J. A. Moyer 186
—Evaporating, condensing and cooling apparatus. E. Housbrand 370
—The five day week in manufacturing industries 187
—Forces affecting municipally owned electric plants in Wisconsin. E. O. Malott 882
—Foundations of the universe. M. Luckiesh 882
—Handbook of chemistry and physics. Chas. D. Hodgman & Norbert A. Lange 525
—Handbook of refrigerating engineering. W. R. Woolrich 370
—Heat loss analysis. E. A. Uehling..... 187
—Industrial electricity and wiring. J. A. Moyer & J. F. Wostrel 723
—Der Industrielle Warmeubergang. Dr. Ing. Schack 524
—Introductory mechanical drawing. Clarence E. Townsend & Stephen F. Cleary. 524
—Mechanical engineering laboratory practice. Chas. F. Shoop 722
—Mechanical equipment of buildings. L. A. Harding and A. C. Willard 186
—Die Olbewirtschaftung Vereinigung der Electrizitatswerke 525
—Piping handbook. Walker & Crocker.... 882
—Reichselectrizitats-Versorgung. O. Von Miller 883
—St. Lawrence waterway project. Geo. W. Stephens 371
—Seven iron men. Paul DeKruif..... 371
—Soviet economic development and American business. P. G. Bron..... 882
—Standard wiring for electric light and power. H. C. Cushing, Jr. 883
—Steam and gas engineering. Thomas E. Butterfield 371
—Steam generation steps ahead. G. B. Gould 882
—Successful control of profits. Walter Rautenstrauch 525
—Robert Henry Thurston. W. F. Durand.. 186
—Toward civilization (Ed.) Chas. A. Beard 722
—Wasserkraft—Jahrbuch 723
—Welding and cutting nomenclature, definitions and symbols. Amer. Welding Society 370
—Welding encyclopedia (Ed.) L. B. Mackenzie & H. S. Card 722
Brazil—Coal consumption decreasing, water power increasing 797
Cable—first installation in U. S. of 3-wire, 66-Kv cable 1008
Calculations—slide rule simplifies orifice-flow calculations. H. G. Hyland 997
Canada—New of 41, 157, 197, 231, 271, 377, 413, 453, 493, 533, 569, 611, 651, 690, 729, 763, 803, 852, 889, 925, 966. 1009
Chimney, how brick chimney was razed. M. M. Vyas 714
Cleveland Engineering Society—Celebrate 50th anniversary 270

C

COAL

—Ash loss determination facilitated by chart. C. H. Bean..... 785
—Burning coke breeze and anthracite screenings 105
—Burns pulverized petroleum coke at Lincoln Beerbower station..... *384
—Calculating heating value from chemical composition. H. L. Kauffman..... 943
—Coal consumption decreasing, water power increasing in Brazil 797
—Firing with pulverized pitch residue and coal. M. Buskaveta *748
—German progress in byproducts 211
—Hams Hall-English station for pulverized *264
—Low-temperature carbonization 74
—Mid-West Bituminous Coal Conference.. 644
—Pennsylvania leads in coal production.. 427
—Progress in low-temperature carbonization 31
